

JAPS GAINED AN ADVANTAGE

Have Begun Their Land Attack Upon Port Arthur with Renewed Vigor.

BELIEVE THE CITY MUST NOW FALL

The Refugees Now State That the Japs, Will Soon Be Able to Occupy the Eastern Gibraltar.

Che-Foo, June 2.—Fighting within five miles of Port Arthur was reported yesterday. Reports which reach here through Chinese sources declare that a great battle has been fought. The fighting may be the result of feints on the part of the Japanese in an effort to feel out the weak points in the Russian defense, as they did at Kin Chow and Nan Shan, and of Russian stories to hamper and delay the completion of the Japanese investment works.

Hot Skirmishes Expected. There is likely to be a good deal of this kind of fighting for the next few days, but nothing definite is expected for a week or ten days.

The heavy guns from the disabled Russian battleships have been mounted on the defenses and will be served by the naval gunners.

Chinese refugees say that supplies are running short and that the Japanese bombardments have almost wrecked the place.

Supplies Rushed to Front. A number of Japanese transports with men, guns and supplies have already reached Daini and their cargoes are being hurried to the front.

The defenses of Port Arthur are now within range of the heavier Japanese siege guns and there already has been an exchange of shots. The Russian shells have done little damage to the Japanese, and it is not believed that the latter have accomplished much except to get the range.

New Chwang, June 2.—General Kuroki's Japanese forces have completely defeated the Russians under General Kurapatkin in a terrific battle at Hail-Cheng, south of Liao-Yang. The loss of life was heavy on both sides.

Whole Squads Defeated. Whole squadrons of Cossacks were made prisoners by the Japanese and many guns were captured.

After holding the Japanese in check against heavy odds for several hours the Russians, under the fierce onslaught of the Mikado's men, gave way and abandoned their positions, retreating toward Liao-Yang.

Great quantities of stores and ammunition fell into the hands of Kuroki, who is now within striking distance of the Russian base at Liao-Yang.

Che-Foo, June 2.—Chinese arriving from Takushan say that a Japanese force estimated at from 6,000 to 10,000, who landed at Takushan last Monday, has proceeded to Feng-Wang-Cheng. Reinforcements have, it is reported, also been sent from other points.

Refugees arriving here from Kin-Chow say the Japanese land attack on Port Arthur was begun Wednesday morning. Russian forces that were driven southward from Daini and Kin-Chow by the Japanese are assisting the garrison at Port Arthur and the Russian navy has joined in the movement to repulse the enemy.

There may be several days of skirmishing and outpost work before the Russian city is taken, but it is the opinion of refugees who have arrived here from the beleaguered "Gibraltar" that the Russians eventually must succumb.

Victory for Kuroki. London, June 2.—A special dispatch

from Rottum says a telegram has been received there from Tokio reporting that Gen. Kuroki has completely defeated Gen. Kurapatkin's forces near Sumtse (probably Salmatza or Simatsi).

All the Russian positions east of Hail-Cheng have been abandoned, according to the telegram; several guns have been taken and whole squadrons of Cossacks captured.

It is possible the news received in Rome refers to the fighting reported in dispatches from Liao-Yang and St. Petersburg. These did not indicate a general engagement, but showed that sharp fighting had taken place east of Simatsi, lasting from the morning of May 27 until daylight May 30, which resulted in severe losses on both sides and the retirement of the Russians upon Simatsi. The latter place is thirty-five miles north of Feng-Wang-Cheng.

Japanese Lose 200 Men. Liao-Yang, June 2.—The Japanese lost 200 killed and a number of horses in the fight at Vagoufuchi May 30. The Russians opened fire at 8 in the morning and after two hours and a half long range firing the Japanese, under Gen. Akikuma, prepared to charge and crush the force, which had been harassing them for twenty-one days.

In the meantime General Samsonoff was approaching Vagoufuchi with a strong force of cavalry. It was a slight work seeing, when at the word of command the Russian squadron formed and rushed like a whirlwind across the river cut up country, clearing away all obstacles, the batteries at the same time trotting along the frightful roads. Having passed the railroad station, the troops came under the fire of the Japanese machine guns, but withdrew without suffering much loss.

The fourth and sixth companies of the eighth Siberian Cossacks furiously charged the Japanese cavalry with lances, attacking both flanks. In a few minutes they literally cut the whole squadron into pieces. This was the first time lances were used, and they struck terror into the enemy. In some cases the lances pierced the riders through and wounded their horses. Some of the lances could not be withdrawn from the bodies into which they had entered.

Infantry Forced to Retire. The Japanese infantry, numbering four battalions of 300 men to a company, and eight squadrons of cavalry attempted to advance, but the Russian batteries opened and soon the slope up which the enemy was advancing was covered with black spots and the enemy forced to scatter and retire. Some of the Japanese cavalry were wonderfully dashing, charging with shouts upon the Russians, who met and scattered them.

A Cossack who had lost his lance and sword wrenched a sword from a Japanese officer and cut off the officer's head.

The Cossacks picked up boots, which had been taken off by the Japanese in order to facilitate their flight, and flourished them as trophies.

W. J. BRYAN CONTROLS CONVENTION AT OMAHA

Former Presidential Candidate Writes the Platform for Nebraska and Heads National Delegation.

Omaha, Neb., June 2.—The Nebraska Democratic state convention unanimously selected W. J. Bryan to head the Nebraska delegation to the national gathering at St. Louis, and adopted a platform which reaffirms the Kansas City platform of 1900 and places before the public Mr. Bryan's views of what should be embodied in the platform of the coming national convention. Mr. Bryan was chairman of the committee on resolutions and wrote the platform. He had associated with him men who have been his most loyal supporters.

There was no opposition to the adoption of the platform as read, although one delegate attempted to secure the adoption of an additional plank pledging the Nebraska Democracy to the support of the nominees of the St. Louis convention, regardless of whom they might be. He was ruled out of order, however, after reading his resolution.

The following delegates at large were elected: W. J. Bryan, C. J. Smyth, W. H. Thompson and Walter Phillips.

An epidemic of measles has developed at Spencer. Whooping cough is also prevalent.

RAILROADS CUT DOWN COST OF OPERATING

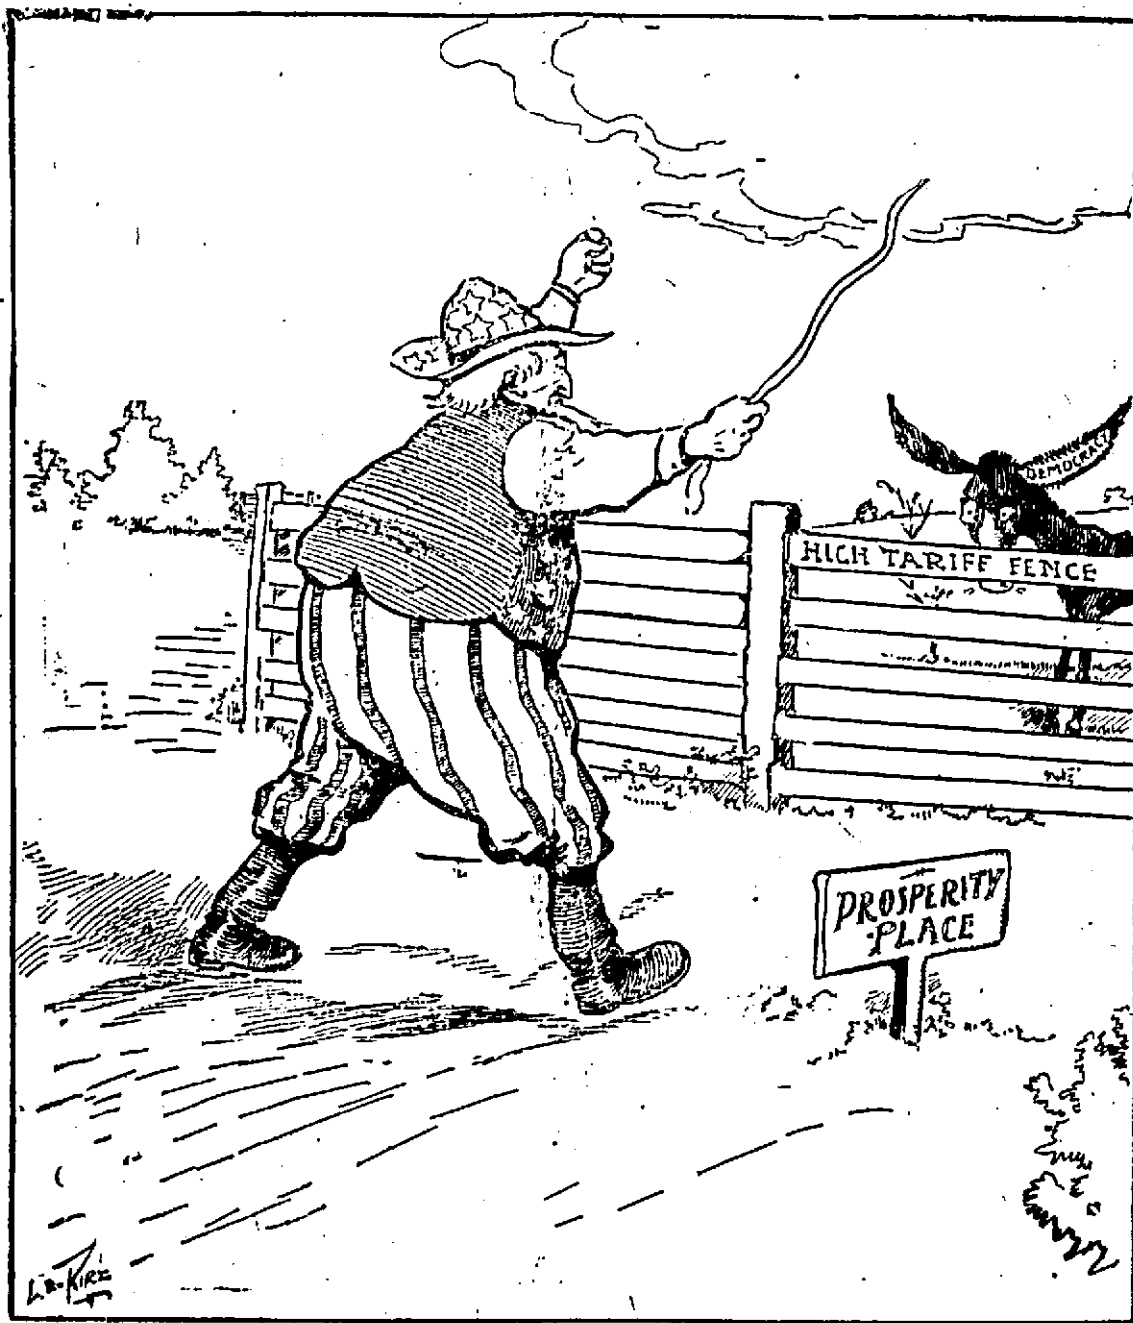

Lines Running Out of St. Paul Reduce Expenses, the Great Northern Alone Saving \$1,400,000.

[Special by Scripps-Mellor.] St. Paul, Minn., June 2.—Retrenchments ordered by lines out of St. Paul during the last thirty days aggregate \$2,500,000, of which \$1,400,000 will be carried into effect on the Great Northern system alone.

President J. J. Hill has given explicit orders for a reduction in force and a saving all along the line in the cost of maintenance and of operating the general headquarters. The Great Northern's move has been followed by a similar action on the part of the Northern Pacific, the Burlington lines out of St. Paul, the Great Western, Minneapolis & St. Louis, and Omaha.

More than 18,000 men are affected, but the economy ordered will be adjusted so that only a small percentage will be thrown out of work entirely. More work and less pay will be resorted to to keep the men on the pay-rolls.

The Northern Pacific is making an equal reduction and will save \$100,000 in operation this year. The Chicago Great Western has initiated plans to save \$200,000. The Minneapolis & St. Paul will save \$100,000, the Omaha \$100,000 and the Burlington \$200,000.

UNCLE SAM: "GET AWAY FROM HERE; YOU BROKE THROUGH THAT FENCE ONCE AND RUINED THINGS ON THIS PLACE, AND I'LL SEE YOU DON'T HAVE ANOTHER CHANCE."

FRANCE ORDERS PROMPT ACTION

Even the Moroccans Are Afraid of Uncle Sam's Anger at Present.

[Special by Scripps-Mellor.] Paris, June 2.—Foreign Minister Delcasse in response to a request of Ambassador Porter this morning instructed the French Minister at Tangier to assist the United States in securing the release of Perdicaris and his stepson. According to a dispatch from Tangier the Angeria tribe have sent a delegation of leading men to interview Ratsul, chief of the bandits in an effort to secure the release of captives.

SPARKS FROM THE WIRE

Consul General Hanna at Monterey has telegraphed the state department that Texas has lifted the quarantine against Monterey to persons reporting at the United States consulate general for five days in succession.

In the event that Arthur Raikes, now consul and first secretary of the British embassy, is promoted to the rank of minister next summer, he will not return to Washington, but will be succeeded in Washington by Springfield, Ill., June 2.—The convention unanimously adopted the report of the resolution committee releasing delegates from all instructions and obligations. The roll call of sixty-seventh ballot was then ordered. The result was: Yates, 471; Lowman, 408; Deane, 386; Harkin, 118; Sherman, 63; Warner, 30; Pierce, 26.

The sixty-eighth ballot: Yates, 481; Lowman, 400; Deane, 373; Harkin, 107; Sherman 80; Warner 14; Pearce, 38. At twelve fifteen the convention took a recess until three o'clock.

First Lieutenant William H. Allen, Twenty-eighth Infantry, has been tried in the department of California on a charge of breach of arrest and sentenced to dismissal. He served in a Tennessee regiment during the Spanish war and was appointed first lieutenant in the regular army in 1891.

Oxford university has decided to confer the degree of doctor of letters on William Dean Howells, the American author.

Professor I. F. Mather, principal of the Fort Edward Collegiate Institute, has been tendered the presidency of the Occidental college at Los Angeles, Cal.

Charles M. Schwab, former president of the United States Steel corporation, sailed for Europe on the North German Lloyd steamer Kron Prinz Wilhelm.

While on a tentative arrangement have been made for the president's sojourn during the summer at Oyster Bay. It has been decided that he will leave Washington for his summer home on the morning of Saturday, July 2. He has decided to receive his notification of the nomination at Oyster Bay.

Takes to Woods With Bible. Haywood, Wis., June 2.—John Nelson, 50 years of age, who had been ill, took his Bible and left home. His wife gave the alarm and the search was continued until he was found in the woods, about three miles from town.

Americans Big Insurers. New York, June 2.—Statistics compiled by an insurance journal here show that the American people are taking out life policies at the rate of \$3,000,000 a day. In the last year the companies paid out \$255,350,000.

Rest and Labor. Extended experiments in Paris show that in a given period of labor the total quantity produced is increased by intervals of rest, especially when short resting intervals are multiplied. Rest acts as a stimulant.

STILL ARGUING OVER NOMINATION

Break May Yet Come in the Illinois Republican Convention Today.

[Special by Scripps-Mellor.] Springfield, June 2.—Another day of expectancy in the republican committee to investigate the Schafer murder, recently died in a private sanitarium in Indianapolis. He made a death bed statement, exonerating James McDonald of any complicity in the crime. The statement was received last night in a letter to McDonald's attorney, sent by Dr. Fletcher, head of the Sanitarium to whom the statement was made. Fletcher said, "Bundy told me several times while on his death bed he had the wrong man and they only wanted a victim." The statement has caused a sensation here. Bundy was a well known attorney. His health failed during the investigation and he went south, later to the sanitarium.

CLEAR McDONALD FROM ALL BLAME

[Special by Scripps-Mellor.] Bedford, Ind., June 2.—Olin Bundy, a member of the citizens committee to investigate the Schafer murder, recently died in a private sanitarium in Indianapolis. He made a death bed statement, exonerating James McDonald of any complicity in the crime. The statement was received last night in a letter to McDonald's attorney, sent by Dr. Fletcher, head of the Sanitarium to whom the statement was made. Fletcher said, "Bundy told me several times while on his death bed he had the wrong man and they only wanted a victim." The statement has caused a sensation here. Bundy was a well known attorney. His health failed during the investigation and he went south, later to the sanitarium.

NEWS OF THE STATE IN BRIEF.

Hiram Huston of Mukwonga collected \$18 in bounty on six wolf scalps from the county clerk at Waukesha on Wednesday.

Dania society of Racine, with 700 members, has decided to purchase a site and erect a hall at a cost of \$15,000 to \$20,000.

Sixty delegates are attending the convention of the Danish Norwegian Free Mission churches of the northwestern state at Racine.

The second day of the state Sunday school convention at Fond du Lac was featured by an address by the Rev. C. H. Beale of Milwaukee.

The Carnegie library at Stevens Point was dedicated Wednesday night. A public reception was held and a short formal program was given.

Preparations are being made to welcome the Liberty bell when it passes through Watertown on Sunday, June 5, with a military salute and national air.

Five of the seven Waukesha high school boys who disturbed Miss Thompson's party on Friday night were fined \$2 and costs on Wednesday. Peter Sinsel and Henry Silverhall pleaded not guilty and their cases were continued to June 7.

The industries of Two Rivers require more hands than can be accommodated at the hotels, and a new hotel with a capacity for several hundred will be erected at once.

The English municipal commission, which is touring the principal cities of the United States, left Washington for St. Louis.

British Ships Are Rotten. Several British warships of the Australian squadron were recently laid off at Plymouth. Their condition is described as "rotten." A naval authority said of them: "There is not one of them that could capture a Chinese junk." The East Indian squadron is said to be in a similar plight.

Birds Foretell Storms. Birds are endowed with a remarkable instinct which enables them to measure up their responsibilities in connection with their nests. Birds never fail to return home long before it rains or a storm approaches. The common sparrow comes first. From his nest he chirps warnings to his feather brethren of larger species than his own.

Jail Breaker Is Recaptured. Des Moines, Iowa, June 2.—August Leuth, convicted of kidnapping Mrs. Telsow of Tipton and holding her for ransom, was recaptured at Durant. He had escaped from jail after assaulting the jailer.

Rest and Labor. Extended experiments in Paris show that in a given period of labor the total quantity produced is increased by intervals of rest, especially when short resting intervals are multiplied. Rest acts as a stimulant.

Americans Big Insurers. New York, June 2.—Statistics compiled by an insurance journal here show that the American people are taking out life policies at the rate of \$3,000,000 a day. In the last year the companies paid out \$255,350,000.

MEANS DEATH TO BRIGANDS

Roosevelt Threatens Moroccan Bandits if They Fail To Release American Prisoners.

SENDS NOTE TO PRINCIPALS ONLY

Declares the United States Will Brook No Delay, and That the Bandits Must Be Captured and Punished.

Washington, June 2.—Following a suggestion made by the president, the administration Wednesday emphasized its threat that if Ibn Perdicaris, the American citizen who is held for ransom by Moroccan bandits, who demand \$50,000, is killed, the United States, "regardless of any other power," will demand, and, if necessary, accomplish by its own actions, the capture and execution of Ratsul and his band of brigands.

This threat was first sent to Ratsul on Monday by Consul Gummere at Tangier, who was also instructed to communicate it to the sultan. The French foreign office also was informed of this action, and it was that, more than the unofficial intimation that its "good offices" would be appreciated, which caused France to take a hand in the affair.

Wednesday a similar communication was sent to the sultan and Ratsul through Ambassador Choate, who presented it to the British foreign office for transmission to the British minister at Morocco. This was done for the double purpose of making it certain that the message will reach the sultan and Ratsul and to suggest and encourage concurrent action by England. It has been strongly intimated to Secretary Hay that England is ready to join with this country in sending an armed force into Morocco to run down the bandits if it becomes necessary.

Hay's Caution Is Overruled. In the meantime England is working through diplomacy, and it developed that this plan was favored by Mr. Hay. The order to send American fleet to Tangier came direct from the president, and was issued against the advice of Mr. Hay, who believed it would be time to send warships when the possibilities of diplomacy.

DESTROYED SALOON WITH DYNAMITE

Peru, Indiana, Has an Explosion Which Wrecks Saloon and Residence.

[Special by Scripps-Mellor.] Peru, Ind., June 2.—The saloon of Frank Monthie was destroyed and the residence adjoining wrecked by a dynamite this morning. It is thought the saloon was blown up by persons who objected to the saloon.

ANESTHETICS CAUSE DEATHS.

The annual returns of the British registrar-general show a steady increase of mortality from anesthetics since 1863. Dr. A. D. Waller of the University of London, says that deaths due to chloroform, the popular anesthetic in England, are caused by too much concentration of the inhaled vapor. A pump, invented by Dr. Dubois of Lyons, has proven itself especially effective in anesthetizing animals, and has been tried on humans with satisfactory results.

Tuberculosis from North Carolina.

Tubercoses are produced in the United States on a large scale, the market being chiefly supplied from a small area in Duplin county, North Carolina, which produces many millions of them annually for sale and for export. The bulbs are plowed out of the ground in autumn, gathered by colored women, hung up in bunches to dry for a month or two, and finally packed in paper-lined barrels.

The Three Symbols of Japan.

The three symbols of the imperial house of Japan are the mirror, the crystal and the sword, and they are carried in front of the emperor on all state occasions. Each has its significance. "Look at the mirror and reflect thyself," or, in other words, "Know thyself," is the message of the mirror, "Be pure and shine," is the crystal's injunction, while the sword is a reminder to "Be sharp."—Leslie's Weekly.

Marfan Canals.

A new theory of the Marfan "canals" is that Mars has a solid crust and an elastic nucleus of a higher temperature. The crust in cooling necessarily contracted, and the pressure upon the mass within caused fissures to be formed in the surface.

Makeup of a Sailor.

At a recent dinner of the St. George's Society at Delmonico's, Capt. W. H. Styrton said that the popular idea of a man-of-war's man seemed to be a blue shirt inhabited by a thirst.—New York Times.

Mr. Hay is greatly encouraged over the progress that has been made, and he believes France will soon secure the release of the prisoners. The European squadron, commanded by Admiral Jewell, reached Tangier, and the Kearsarge, Alabama and Maine of the battleship fleet arrived at Lisbon, where they will probably be held a few days to await developments. The president went over the situation with Secretaries Hay and Moody, and it was decided to hold the seven warships at Tangier for the present. It was at this conference that it was decided to send the second threat to Ratsul through the British government.

Believes Freedom Is Near.

Mr. Hay is greatly encouraged over the progress that has been made, and he believes France will soon secure the release of the prisoners. The European squadron, commanded by Admiral Jewell, reached Tangier, and the Kearsarge, Alabama and Maine of the battleship fleet arrived at Lisbon, where they will probably be held a few days to await developments. The president went over the situation with Secretaries Hay and Moody, and it was decided to hold the seven warships at Tangier for the present. It was at this conference that it was decided to send the second threat to Ratsul through the British government.

NEED OF NEW HOSE HOUSE

POINTED OUT BY CHIEF ENGINEER IN QUARTERLY REPORT.

EXTENSION OF TIME GRANTED

To Those Who Have Not Provided Buildings with Fire Escapes—After That—Prosecution.

To the Honorable Mayor and Common Council, of the City of Janesville: Gentlemen—I herewith submit my report showing the condition and requirements of the fire department for the quarter ending May 31, 1904.

Since the date of my last quarterly report, February 29, 1904, the department has responded to 23 fire alarms. With the exception of the fire at the Art Study factory, April 23, the losses incurred have been small. The loss at the Art Study plant I have been informed was \$50,000 on building and contents, on which there was insurance to the amount of \$10,000—divided as follows: \$5,000 on building and \$5,000 on contents. At this fire the department had many disadvantages to contend with. First, being located fully one and one-half miles from the nearest fire station, with wet and heavy roads. Second, the highly inflammable contents of the building, such as gasoline, varnish and wood alcohol, incited the flames to spread with great rapidity. Furthermore, the department was handicapped by reason of the fire hydrants being situated too close to the burning building and for the above reason it became necessary to call into service the steam fire engine, which did excellent service and no doubt arrested the flames from further progress, thereby saving the electric light plant and wheel house. At this fire 400 feet of first-class hose was destroyed.

Need of New Hose-House.

In my last quarterly report I suggested that some steps should be taken that would ultimately give to the southern and western part of the city better or more adequate fire protection, which would also afford additional protection to the downtown district. The frequency of fire alarms in the past few years, many of which call the department to the residence portion of the city and by reason of the same the business and manufacturing districts are at times left four hours without fire protection, prompts me again to call the attention of your honorable body to the fact that there is a possibility of a fire gaining uncontrollable headway in these districts while the department is contending with another fire in a different part of the city. The fact that we have been fortunate to escape it up to the present time no guarantee for the future, unless proper precautions are taken. To obviate any possible trouble in this line I would respectfully recommend that a hose-house be built at some point near the Fourth ward park, with a hose wagon and three men. With this company our city could be divided into districts. The fire limits or downtown district be placed in the first district, all companies responding to alarms within these limits. The east side of the river outside of the second district, fire alarms being responded to by Nos. 1 and 2 companies, No. 3 being subject to call. The third district, consisting of all territory on the west side outside the fire limits, arms being responded to by west side companies, the east side company being subject to call. This would give the business center a reserve at all times, besides providing means with which to respond to second alarms when they occur. The growth of the city, in my opinion, demands that some increase of this kind be made in the fire department. The apparatus of the department is practically the same today that it was when the city did not contain one-half its present population or wealth. It is not necessary or advisable for a large company in this district mentioned. In my opinion three men as suggested is all that is required, as they at all times will be at work with one or both of the larger companies. A suitable site, I believe, can be purchased and a station erected thereon for about \$5,000. The equipment such as would be necessary to properly place this hose company into service will cost about \$2,000.

As to Fire Escapes.

The horses belonging to the city at this time in good serviceable condition, while some of them are becoming a little aged for service, and for the betterment of their condition, I would advise the securing of an extra horse thereby giving each horse in its turn a much needed rest. The two horses recently purchased are as promising a team as ever was in the department. Both fire stations are in need of a few slight repairs. All the fire wagons are in good shape excepting hose wagon No. 2, which should have a new set of wheels and axles. Pursuant to the order recently passed by the council relative to the fire escape law, I desire to report that the instructions have been carried out and where necessary notices have been served on property owners in the city. In the majority of cases the said owners have evinced a disposition to comply but in a few instances they have either assumed an attitude of indifference or intimated that they regarded this effort to secure such enforcement as a mere passing whim of no permanent significance. Inasmuch as the responsibility in this matter rests solely upon the chief engineer, I desire to say that these possible hopes will not be realized, and that the law will be, so far as I am concerned, strictly enforced to the letter. While the ninety days allowed for compliance with its instructions have in several cases expired, there is a reasonable excuse owing to the fact that fire-escape manufacturers throughout the country have been rushed with orders since the terrible disaster in Chicago and have not been able to fill even long standing contracts with any degree of promptness. For this reason there is no disposition to be harsh or unjust; therefore I have taken the liberty of extending the time ninety days. At the expiration of that time there will be hardly any reasonable grounds for non-compliance and the district attorney will be asked to commence prosecutions, as the law directs.

The Building Ordinance.

I would urgently request a right enforcement of the building ordinance. Violations of this ordinance or the granting of special permits to build fire-traps in the business portion of the city or fire limits should not be tolerated. Violations of this ordinance are closely watched by the insurance companies and invariably result in the advancement of insurance rates. As this ordinance now stands it is only admissible to build of brick or stone and as various parties desire to use cement blocks, I would respectfully ask if the same can be permitted under this ordinance, and if not I would suggest that the same be amended so as to permit the use of said material, if in your judgment it is advisable to do so. I would respectfully ask for the printing in convenient form of all laws, ordinances and regulations relating to the fire department for the edification of the members of this department, as well as the convenience of the public, who often desire information on these subjects. It is with sincere regret that I am compelled to appraise your honorable body of the death of John Durkin on April 29, 1904. Mr. Durkin was a full paid member and had been identified with the department for nearly a year as driver of the hook and ladder team. He was an efficient and faithful worker and his passing was deeply deplored by all of his associates. His funeral took place at Blanchardville, Wis., on April 23. Two men from the department were detailed to escort the remains to their final resting place. Respectfully submitted,

H. C. KLEIN.

WILL SAIL DOWN THE ROCK RIVER

Party of Madison and Beloit People Go to St. Louis in a Novel Manner.

Rock river is becoming famous. Since early days when the wily Indians used along the river in their birch bark canoes and dugouts up to the present time when great electric and steam launches plow the waters in certain localities Rock river has more or less been a means of transportation for many people. Once a steamboat used to run from Janesville to Rock Island, but that was years ago, before the river had been chained by dams and becomes un navigable through disease and weeds. Two years ago the pirate craft "Yellow Kid," manned by brave "people from the Line City, traveled for many miles on its waters and at times persons have taken canoe trips and floated down in row boats from Madison to the Mississippi.

To Take Trip.

This year, however, a party more adventurous than in the past will go from Madison to St. Louis by boat and will pass through Janesville on their way. Present indications are quite a little fleet setting sail from Madison on June 10. They will come down through the four lakes, into the Catfish and thence into the Rock, passing through Janesville on the thirteenth or fourteenth. They will camp out on their trip and expect to have rare sport from Madison all the way to the city of St. Louis.

The Party.

The party will consist of Professor H. G. Smith, of the state university, and Prof. Ernest Smith, of the Beloit high school and some half dozen students and Madison young men. They expect to have to do a lot of work passing the different dams on their trip, but anticipate no serious trouble. They will use light row boats and will carry as little baggage as possible, sending their grips ahead by express.

WALTON PYRE AND MISS LA FOLLETTE IN "PRINCE KARL"

Indications Point to a Large Attendance at the Opening Engagement This Evening.

The seat sale for the opening engagement of Walton Pyre and his excellent company opened this morning and there is every indication that a large audience will welcome the sterling players at the Myers theatre tonight. Mr. Pyre is well and favorably known in Rock county, having taught school at Evansville for several years. Many also remember with pleasure his appearance in "The Russian Honey-moon" in this city last season. Miss Fola La Follette, daughter of Governor La Follette, makes her debut on the professional stage with the company this season and will appear tonight as leading lady in "Prince Karl," the play presented a few years ago by Richard Mansfield and all rights to which save since been withheld. The support is remarkably good and includes a number of artists who have played with distinction with some of the leading contemporary actors. The close of the season for most of the companies has made it possible to secure their services. At Beloit last Monday evening Mr. Pyre and his associates were accorded a flattering reception and the Madison Democrat in last Sunday's issue devoted an entire page to the company and its personnel. Tomorrow evening William Gillette's "Esmeralda" will be presented here.

INVENTIONS BY LATE INVENTORS

Government Patent Office at Washington Issues Its Latest Lists.

761,088. Hydrocarbon-burner. W. W. Porter, Beloit.

761,130. Signal for adding-machines. F. H. Cottrell, Milwaukee.

761,192. Mixing and vaporizing device for motors. E. B. Parkhurst, Milwaukee.

761,210. Printing-machine. F. H. Cottrell, Milwaukee, assignor to American Check Printing Machine Co., of Wisconsin.

761,211. Dumping hay-rake. J. R.

Danner, Marshfield.

761,255. Molding apparatus. G. D. and D. G. Rowell, Appleton.

761,325. Packing-gasket. J. J. and A. B. Schler, Milwaukee.

761,367. Tree-tapping tool. W. E. Fish, Kaelche.

761,472. Treading-lathe tool. John Geetz, Milwaukee.

761,488. Attachment for mower flange-bars. C. J. Hirsch, Milwaukee.

761,556. Book-mark. F. J. Taek, Waupun.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

761,562. Corn-husking machine. G. L. Wacketow, Milwaukee, assignor of one-half to Carl Hunge, same place.

Danner, Marshfield.

AMONG THE WORLD'S WORKERS

News Notes From Various Sources of Great Interest to the Workman.

The furnace of the Empire steel and iron company of Oxford, N. J., went out of blast yesterday. The shutdown is for an indefinite period, and about 100 men are out of employment. Each employee yesterday was told that his service was no longer required for some time.

The rail mill, the nine-inch mill and the plate mill of the Cambria steel company of Johnstown, Pa., are closed down, owing to a lack of orders.

Philadelphia tapestry carpet manufacturers have notified their weavers that after June 1 they propose to return to the old working basis of sixty hours a week. When the textile operators struck last summer the carpet weavers were the only employees who gained any reduction in working hours. On a compromise basis of 57 1/2 hours a week they returned to work, after weeks of idleness. The textile workers struck for a fifty-four hour week. No decision has been reached by the carpet weavers' union on the notification of a return to the sixty-hour week.

It is said that the American Federation of labor sends out 25,000,000 publications annually.

By a unanimous vote, the Lake Carriers' association, at its meeting in Cleveland recently, approved and endorsed the action of its executive committee in refusing the demands of the Masters and Pilots' association and passed resolutions declaring it to be the sense of the members to continue the fight and to offer no concessions.

About 11,000 men will be laid off by the Pennsylvania railroad company, the aim being to get down to the 1902 basis. Continued shrinkage in business and no expectation of early improvement are the reasons for this big reduction in the force just decided upon as unavoidable. This reduction in the number of employees, including those notified this week, applies in all departments—transportation, maintenance of way, shops—but only on the lines east of Pittsburgh and Erie. On the Pennsylvania system west men will be laid off in like proportion.

It is authoritatively announced that local coal operators will split from the organization in Coshocton and open all the mines at the union miners' scale. Henceforth the operators' organization in Coshocton will be separate from that of the balance of the field, on account of the favorable contracts, better coal, and plenty of work in sight.

An Open Meeting: The Good Templars will hold an open meeting at their hall Friday evening, June 3, to which the public is cordially invited. A musical and literary program will be rendered. No charge for admission.

Art League: The history class of the Art League will meet with Mrs. Fred A. Capelle, 155 S. High street, tomorrow afternoon at three o'clock.

"GEISHA" SHIRTWAIST OF ROU Here the yoke is fashioned with lo down with Honiton lace, and applique tucks on the yoke and sleeve top, simulate an extension of the yoke. T fasten under a fly. The sleeves are with straight cuff fastened with a hand-adjuster cleverly combined with a waisted effect.

In Ordinary Conversation---

with a friend you frequently have to repeat what you have said, sometimes more than once, before your listener "understands" you. Sometimes it is the same with want advertising.

3 Lines 3 Times, 25 Cents.

WANT ADS.

WANTED TO EXCHANGE—A first class square piano for a bureau. Inquire at 22 Race street.

WANTED—1 to 20 horse power steam boiler, suitable engine and also steam pump, for a garage power boiler. Address Daniel Kuey, Rockford, Ill.

WANTED, at once. An Al painter. Apply at once to D. S. Cummings, 21 Park avenue.

WANTED—A man to hoe. A. M. Church, 15 mile west of city limits on Magnolia road.

WANTED—Dressmaking, or plain sewing by the day. Address M. C. 213 N. Jackson St., upstairs.

WANTED—A man to shear sheep. Call at 114 West Milwaukee street.

WANTED—Two girls to learn the art of dressmaking at the Dress Cutting School; one to work for her and learn the trade; and girls to learn the system.

FOR RENT—Three flats and furnished rooms. J. H. Myers.

FOR RENT—Small five room house. Enquire at 162 S. Jackson St.

FOR RENT—Five room flat with bath, over Holmstrom's drug store.

FOR RENT—Small family—lower flat at 21 Madison avenue, gas, city and electric water. Rent \$10 a month.

FOR RENT—House near Beloit and Eastern streets. Rent \$10 a month. Call at 101 S. Jackson St.

FOR RENT—Five room cottage in First street, near H. H. Baueker's. Sutherland block on the bridge.

FOR RENT—Room house on Third street. City water. Enquire at 101 Wall street, near City Hall.

WANTED—A ripper on hard wood. Jace, J. H. Sash and Door Company.

FOR RENT—Eight room house on S. Franklin street, opposite pumping station. Enquire of Mrs. F. B. Baker, 214 N. Jackson street.

FOR RENT—House of 15 rooms, suitable for boarding house, centrally located; also two 7-room houses. Enquire of D. W. Watt, Hayes blk.

FOR RENT—Furnished rooms for light housekeeping; also single rooms. 122 Park street.

FOR SALE—House, barn and about three acres of land in First ward. Fine trees. Price \$1000. Hayner & Lewis.

FOR SALE—Old fashioned milk shaker at Holmstrom's drug store; cents a glass.

FOR SALE—Tomatoes, cabbage, cauliflower, etc. Enquire at the very low price of \$1.25. 122 Madison avenue.

FOR SALE—Old papers for shavings and for laying under carpets. Five cents a bunch. At Gazette office.

FOR SALE—One of the best business blocks in the city, known as the "Bankers' Block." In the city center, on the corner of Third and Madison streets. The block is divided into three modern stores on Court street, and eight modern flats above. A good investment. Inquire of F. L. Stevens, exclusive agent, over old post-office.

FOR SALE—A large two foot solid walnut table. Can be used for showing goods or as a counter. Address Table, Gazette.

FOR SALE—A limited number of land made in single lots at the very low price of \$12. J. H. Murray, North Main street.

FOR SALE—A good driving horse, six years old, suitable for either lady or gentleman. Enquire at 212 N. Washington street.

FOR SALE—New sewing machine nine foot long; splendidly made, and just right for counter or show use. Inquire at Gazette office.

...Forty Years Ago...

Janesville Daily Gazette, Thursday, June 2, 1861.—E. A. Pollard, the assistant editor of the Richmond Examiner, whose capture on a blockade runner has already been mentioned, has been permitted a few days since, to range about Boston on parole. Under orders from Washington, he has been sent to Fort Lafayette. Pollard has been one of the bitterest and most brutal of the rebel officers, but had been far more mild and candid. It was an outrage that he should be at large, while northern correspondents are inmates of loathsome southern prisons.

Nomination of Lincoln. The Chicago Post, a democratic paper, says: "There is no use in denying the fact that it is now apparent to all that Mr. Lincoln will be nominated by acclamation at the Baltimore convention; the convention really has no other business. This is a very natural deduction from the evident facts of the case."

Closing Party. The closing party of the season will be given by Prof. Martin at the Hyatt House hall this evening. There has been but one sentiment as regards these gatherings, and that is that they could not have been pleasanter. The professor has acquired himself in a number to gain the good will of all whom he has come in contact with in this city. It is to be hoped that he will at some future time open another school here. We presume the party will be largely attended this evening.

Accident. A little girl, four or five years old daughter of John Hicks, of this city, was quite badly injured on Tuesday afternoon. She was playing around a corn sheller, which was in operation, occasionally throwing in an ear of corn herself, until finally her clothes were caught by the machinery, and putting out her arm to save herself from being drawn in

father, the limb was caught by the gearing between the wrist and the elbow, and the flesh badly lacerated. Fortunately no bones were broken.

Yankee Robinson's Big Show.—This famed show made its entrance into this city this morning, the immortal "Yankee" himself leading the procession. A fine band of music gave our citizens an excellent specimen of music, as it passed through some of the principal streets. The show will place this afternoon and evening, near the railroad passenger depot.

JANESVILLE MARKET REPORT

Quotations on Grain and Produce Reported for the Gazette.

REPORTED BY F. A. SPOON & CO.
May 29, 1904.

Seventh—H. A. BRIGHT, Black River Falls.
Eighth—E. M'GLACHLIN, Portage.
Ninth—GEORGE BEYER, Oconto.
Tenth—M. D. KIEFE, Forest.
Eleventh—EDWARD L. PEET, Burnett.

IMMENSE SUMS BORROWED.

With the heavy borrowings both in this country and in Europe, which have taken place recently and are scheduled to take place shortly, says the Financialer, the money market movements for the coming month or six weeks will be followed with an unusual interest. The following list, which includes loans already announced and those to be speedily announced, makes an aggregate of almost \$575,000,000.

Russian loan	\$160,000,000
Japanese loan	50,000,000
Transvaal loan	25,000,000
New York City loan	37,000,000
Paris municipal loans	103,000,000
London County Council	25,000,000
Penn. Company notes	50,000,000
New York Central loan	50,000,000
Am. Tel. & Tel. Co. loan	20,000,000
Philadelphia City loan	16,000,000
Northern Central stock issue	5,700,000
Rock Island	5,000,000
Baltimore & Ohio	10,000,000
Norfolk & Western	3,000,000
Wabash	1,150,000
Cross Town	2,250,000
American Pipe Co.	2,000,000
Total	\$575,110,000

Within the past few years all classes of corporations, from municipalities to aeroplane companies, have obligated themselves heavily; falling to make pecuniary arrangements with accustomed facility because the great money lenders of the world have been engaged in transactions of vast import, a day of heavy settlements has become imminent. For instance, our own government has paid \$10,000,000 in cash to France and will shortly pay \$10,000,000 to the government of Panama. In this country the South Pennsylvania sale to satisfy a \$9,000,000 claim will be closed up within the next few days; the Walrus Terminal syndicate has made a settlement involving many millions; the United States Steel bond syndicate has also made a settlement. For many months the governments and municipalities of the world have been in the market to an extent that in no little way interfered materially with ordinary corporation borrowings. An authority states that: "The period of borrowing and settlement has definitely succeeded that of expenditure and undertaking, and it will continue apparently for some time. Money institutions in all parts of the world have been preparing for this period which bids fair to be one of the most marked and rapid in the changes and in the holdings of money that has been experienced."

That the "world do move," is clearly indicated by this array of figures, and that the United States leads the procession is a gratifying fact. The Cuban loan of \$25,000,000 in five per cent. bonds is not mentioned, nor the investment of \$50,000,000 in the Panama canal, with \$200,000,000 more to follow as the work progresses.

That capital is in sight to float these great enterprises, is a credit to the nation, as well as to the men who possess the ability to accumulate.

RETRENCHMENT.

The New York Central road, recognized as one of the best managed and best paying roads in the country, has laid off 10,000 men during the past few weeks. The volume of business is light as compared with a year ago, and retrenchment is the order of the day.

What is true of this old and well established road, is true of all other

transportation companies, and it is estimated that 75,000 railroad men are now idle. The Santa Fe system had a strike not long since, but vacancies were filled so rapidly that it created no disturbance, and the strikers simply found themselves out of work.

The heavy manufacturers, in most parts of the country, are not crowded with orders, and many of them would be glad of a reasonable excuse for shutting down. Under these conditions in the industrial world, organized labor will do well to think twice before going out on any kind of a strike.

While the country is still prosperous, it is well stocked with manufactured goods and the wants of the general public are well supplied. There is no law which creates trade, except the law of demand, and this same law applies to labor in every department of toll. If retrenchment results in depression, it will not be a question of wages or a short work day, but it will be a question of work.

The greatest blessing that comes to any man, is the ability and opportunity to work, and the most despondent curse, is enforced idleness. There is no more pitiable sight than an able bodied man, willing and anxious to work, but searching day after day for a chance, with fruitless results. If he has a home dependent upon his exertions, the disappointment is more keenly felt, and it is not at all surprising that men in this condition are frequently driven to drink or suicide.

This is a good year for labor to take a reasonable view of conditions, and if steady employment is in sight, it should be cherished, and the interests of the employer so faithfully served, that no occasion for complaint will exist.

WILL NOT INTERFERE.

All sorts of rumors are afloat as to the attitude the president will assume toward the factional fight in Wisconsin. It is claimed that Senator Spooner has called on him in the interests of the conservative element, and that a committee of the governor's friends have also had an audience with him. It is safe to say of President Roosevelt, that he will not mix up in local matters, and Wisconsin will be left to settle her own difficulties without interference from the White House. The action of the republican national committee and the decision of the supreme court will settle the legal status of the contestants, but it will require more than this to unite the factions. The chasm is too wide to be spanned by any law outside the tribunal of justice between man and man, and this tribunal deals with moral rather than legal rights.

There is but one republican party in Wisconsin. There can never be two. It is idle for either faction to attempt to reach the other out of the party. It cannot be done. The party is greater than the individual and it will live long after contending factions are forgotten, however much it may be embarrassed and hampered. The history of the two conventions is before the people, and they are competent to decide, and while a decision may not be rendered until November, it will be a just verdict, for the court of public opinion is usually fair and impartial, and seldom makes mistakes.

This court of the public is not influenced by impulse or prejudice. It takes time to weigh questions in the light of evidence, and there is no appeal from its judgment.

The republican party of Wisconsin is now on trial in this court, and that it will be acquitted is not a matter of doubt. Time may be required to release it from bondage, but it will be released. The president is familiar with the situation, and like all other good republicans, he has confidence in the party.

AMERICAN ENTERPRISE.

American ingenuity, as well as enterprise, has recently been put to the test in planning and casting two bronze tablets to be placed at either end of the Williamsburg bridge across the East river. The tablets are 53 feet long, 4 feet and 3 inches in breadth and weigh 6,000 pounds each.

They are covered with inscriptions and names connected with the building of the bridge, and represent a work of art of high order.

Sidney U. Barr is the architect, and the "Jackson Works" executed the work. A full description with cuts is contained in the "American Inventor," of June 1.

Dr. Updike, of Madison, had the temerity, a few days ago, to express his opinion on the action of the gymnasium convention. As a result the Governor's Milwaukee organ devoted a column to abusing him yesterday. The man who crosses the governor's path, be he clergyman or layman, is a target for abuse.

Mr. Hearst knows enough to quit when he gets enough. He has spent a fortune in the pre-convention campaign which can now be charged off to advertising account. His yellow journals continue to flourish.

PRESS COMMENT.

Superior Telegram: General Miles is getting farther behind all the time. He is still advocating independence for the Philippines.

Kenosha Gazette: This is the time of the year when the old veteran has a sort of plying contempt for the young fellows. The old boy is king and he knows it.

Milwaukee News: In promiscuously planting floating mines in the course of the republican craft, it is suspected that Gov. La Follette will find it some what hazardous navigating the political waters when he sails out of port.

Ashland Press: The stampede for the Cook band wagon will begin about the time of the national convention. Secure seats early and avoid the rush.

Chicago Record-Herald: Parker has confessed to a friend that he thinks he is big enough to be president. This will have a tendency to make a good many of his former friends think he isn't.

Sheboygan Journal: If the republican split is not mended Wall will be a strong candidate at St. Louis, and the Wisconsin state delegation ought to stick to him until they are absolutely sure he cannot win. The possibility of a democratic victory this year entitled the state's delegation to a big voice at the St. Louis gathering.

Chicago Record-Herald: Aguinaldo has become a hermit. The great trouble with most of the people of Aguinaldo's kind is that they don't know when it is time for them to crawl into small, dark holes and keep quiet.

Marion Advertiser: Editor Hicks, of the Oshkosh Northwestern, says it is time to quit calling a half-breed political names. All right! We won't call the governor "half-breed" any more, but will just consider him a little hypocrite and say nothing further about it to our neighbor.

Madison Journal: The howl of the howling lamenting for something he never had is as the murmur of a brook compared with the rush of Niagara, when Gov. Hoard turns his batteries on the railroads that give him free transportation.

Berlin Journal: Since the prison shoe shops have been moved away the editor of The Wapum Leader has taken to publishing a list of dead folks buried in the cemetery in that village. He wants to do something to cheer up the Wapumsters and make them believe that somebody had once lived there even if they and mostly died or moved away. The Leader mustn't get and at the above, we don't mean anything mean. Just a jovial way of commenting on sad things.

Oshkosh Northwestern: There are many indications that most of the republicans of this state are gradually cooling off after the excitement of the recent deluge at Madison, and whichever faction is recognized by the national convention, especially if this selection is upheld by the state supreme court which will be called on to adjudicate the question, will be accepted very generally as the one entitled to the support of all true members of the party.

Seranton Tribune: The coming summer promises to equal the recent winter in its strain on the memory of the oldest inhabitant. George F. James, of the state university at St. Paul, states that more than 100,000 teachers will retire this year because their salaries do not afford a living. Professor James says that many school boards expect teachers to instruct in Latin and Greek, and the sciences, conduct glee clubs, take charge of physical culture classes and general athletics, and wear an air of cheerfulness on \$50 a month for nine months in the year. He believes that a day laborer working the entire time can do better.

Fond du Lac Reporter: As the campaign proceeds there will be desperate efforts to seduce "fair minded" democrats into support of La Follette in one way or another. Democrats should be on their guard against such devices. There is an opportunity this year to elect a democratic state ticket and it ought to be sufficient to hold the vote of every man who calls himself a democrat. It is argued that La Follette has some democratic leanings, the answer of the voter should be that he wants a man for governor who is all democrat and who has no leanings whatever. Such a man will be nominated by the democratic state convention and he will be entitled to the vote of every member of the party. Democrats who voted for La Follette two years ago ought to have had enough of him by this time, and they probably have.

Milwaukee Sentinel: Not long ago a French philosopher discussed learnedly in a remarkable book, the psychology of crowds. There appears to be such a thing as the collective mind of a mob, which is swayed by strange impulses and spasms of passion or enthusiasm foreign to the minds of the individuals composing it. Persons under the spell of this collective impulse are borne into extravagances often ludicrous and sometimes culpable which they afterwards wonder at and try to account for. Following, perhaps, this line of speculation, a Philadelphia paper draws a distinction between the behavior of American women as individuals, and their occasional strikingly different behavior en masse. Most people have seen and some have theorized on, for instance, the bargain counter rush—the frenzied mass of ordinary gentle and decorous femininity crushing, elbowing, butting their way to the counters, while salesladies blanch behind their entrenchments and pallid cashiers seek safety in flight. It appears that last week in St. Louis the president's daughter had an exciting experience of the danger from the mob impulse, which might have had serious results. According to the press reports, hundreds of women bore down en masse on Miss Roosevelt at the railway station, swept away policemen and ticket takers, and "nearly crushed" the young lady in their mad rush to show their esteem for her and inspect her Paris gown.

Madison Journal: An exchange in recently remarks that a reported notice a young man and a young lady emerge from a parlor the other evening and one side of his nose was powdered and one side of hers was not. What was that a sign of?

TOO LATE TO CLASSIFY

FOR REST, in Harvard Club, Lake Geneva—Sixteen cottages, modern improvements, fully equipped for housekeeping. Also hotel grounds. For terms inquire of Mrs. W. H. Johnson, 1841 Saint street, Chicago.

WANTED—Lady or gentleman of fair estate, to travel for a firm of \$25,000 capital. Salary \$1,000 per year and expenses paid weekly. Address, with stamp, J. A. Alexander, Janesville, Wis.

BIG EXCURSION NEXT TUESDAY.

Many Will Take Advantage of Special Rates To Dakota and Minnesota Points.

Home-seekers and investors from eighteen Wisconsin towns accept E. A. Damer's invitation to visit Lund's land Agency properties.

The largest excursion which has left Wisconsin in many months to visit its western lands, will be that which takes E. A. Damer and party direct to Redfield, South Dakota, and other points next Tuesday. People from Janesville, Milwaukee, Bangor, La Crosse, Revere, Fond du Lac, Lodi, Delavan, Watertown, Ft. Atkinson, Elkhorn, Orfordville, Gratiot, Woodford, Montford, Madison and other points will make the trip.

Take time to investigate the proposition made to you by Mr. Damer. He will take you with him on next Tuesday's excursion and show you some of the finest land for diversified farming that the sun ever shown on. Three years ago this same land could be bought for half what is asked for it today. Two years from now it will sell at double the price now asked for it.

Mr. Damer's offices are 414-416 Hayes block, Janesville.

Talk with him about the next excursion which leaves Janesville at 11:45 a. m., via North-Western Line, Tuesday, June 7th.

Slip on your Sunday togs and go along for a profitable pleasure trip.

TONIGHT

WALTON PYRE

Miss Fola LaFollette

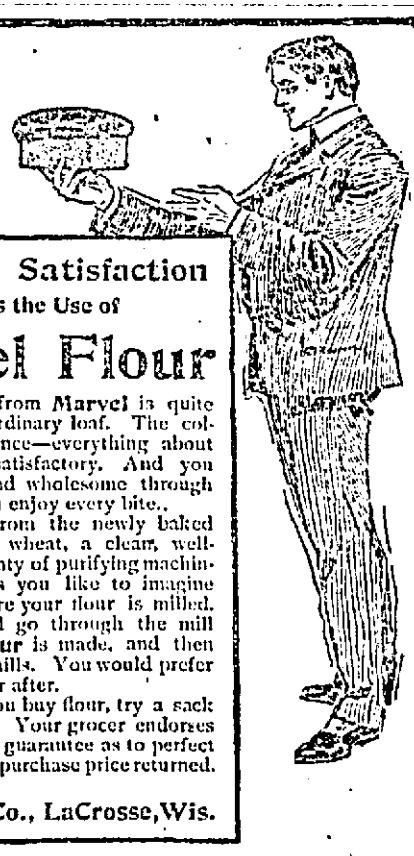

assisted by a superb company,
in Manfield's famous play,

"PRINCE CARL"

An Elaborate Production with special scenery and gorgeous costumes. An erroneous idea is prevalent that this company is composed of amateurs. This is not correct. *Every member is a professional*, having been engaged in New York and Boston by Mr. Pyre for the summer tour. The first week in July the company is booked to appear at the Davidson Theatre in Milwaukee.

MISS FOLA LA FOLLETTE.

Unequaled Satisfaction

Follows the Use of

Marvel Flour

A loaf of bread from Marvel is quite different from an ordinary loaf. The color, flavor, appearance—everything about it is thoroughly satisfactory. And you know it is clean and wholesome through and through. You enjoy every bite.

The fragrance from the newly baked loaf bespeaks ripe wheat, a clean, well-ventilated mill, plenty of purifying machinery—all the things you like to imagine about the mill where your flour is milled. We wish you could go through the mill where Marvel Flour is made, and then go through other mills. You would prefer Marvel Flour ever after.

The next time you buy flour, try a sack of Marvel Flour. Your grocer endorses the manufacturer's guarantee as to perfect satisfaction, or full purchase price returned. Ask him.

HAD PROXIES IN ARMORY MEETING

MILWAUKEE NEWS MAKES STARTLING DISCLOSURE.

CENTRAL COMMITTEE MEETS

Is in Session in Milwaukee to Discuss the Situation and Form Plans.

The republican state central committee is meeting today in Milwaukee. The call issued by Chairman Theodore Goldin has met with a ready response and from all parts of the state committee men have met to perfect their organization and complete their arrangements for the summer campaign. A. H. Sheldon, the committee man from Rock county, left this morning to attend the meeting. He did not think that much would be actually accomplished beyond the election of a secretary and talking over the plans. The headquarters have been opened in the old republican headquarters at the Pfister hotel and the meeting will be held this afternoon.

La Follette evidently fears the influence that President Roosevelt might have upon the committee on credentials favoring Spooner and Quarles, and so a delegation consisting of Leonard, Secretary of State Houser and Lumberman Connor have been in Washington to discuss the ways and means with both the President and Postmaster Payne and at the same time try and spread gloom over the prospects of the state going for Roosevelt if the Cook ticket is the republican ticket. It is a clever move on the part of the governor, but the real force of the blow was lost in so much as Senator Spooner and Senator Quarles and Congressman Houser have all either been or are to be present personally and asked him to keep his hands off the fight and let the Cook ticket win out on its merits or not at all.

Want Investigation.

The La Follette leaders are very anxious to have the supreme court pass on the legality of the case at once. They even hint that if it is brought to the notice of the court by June 9 they will be much pleased. Thus far they are only surmising at the real claims of the Cook leaders and have not yet received the hints as to the true character of the charges of illegality in the armory meeting which may be brought out. Meanwhile the attorneys for the conservative republicans are going ahead slowly and making sure of each step and when the time comes will be ready to present a mass of absolute evidence for the consideration of the court.

Legal Lights.

If the matter comes before the supreme court it will bring out some of the keenest legal lights in the state. John M. Olin, of Madison, the attorney for the republicans who held their convention in the opera house, is one of the authorities of the state. General Winkler, whose master hand framed the republican platform, is the Nestor of the whole bar. Senators Spooner and Quarles are both legal authorities that command respect in the country over. It is understood that La Follette will arrange his own case and that he will be assisted by Gilbert Roe, a former law partner, who is now located in New York, but has recently been summoned to Madison for consultation.

The Situation.

The Milwaukee News sums up the situation in the following: In addition to the brief which the attorneys for the anti-La Follette people will present to the republican national committee in support of the regularity of the Fuller opera house convention some exceedingly sensational affidavits have also been prepared which will also be filed with the committee for its perusal. In the affidavits it will be alleged that by no means all the La Follette delegates who were elected at the convention and that other men who had never been chosen as delegates occupied their seats and voted in the convention.

Thus it will be claimed that these irregularities occurred in Milwaukee delegations and also delegations from Northern Wisconsin. The affidavits will show that despite the rule in regard to proxies in state conventions which was adopted at the instance of the La Follette people themselves, men who can be regarded in no other light save as proxies in reality occupied seats in the convention.

Opposition's Eighteen.

Affidavits will also be presented from eighty-seven Milwaukee county delegates that they did not participate in the gymnasium convention after the separation, thus showing conclusively that the La Follette claim of a representation of sixty-one Milwaukee delegates in the gymnasium convention is without foundation.

It is learned that stress will be laid by the anti-La Follette people in their arguments before the republican national committee on the fact that the La Follette people were in reality the "lofters" in the fact that they failed to attend the regularly called congressional district caucuses for the sole reason that the opposition controlled a majority of the districts and would thus have controlled the state central committee and nominations.

Myrick Goes to Washington.

The La Follette people, in their anxiety to add their case before the republican national committee, have sent Secretary of State Houser and H. P. Myrick to Washington to discuss, if possible, the Wisconsin situation with President Roosevelt. It is said that Mr. Houser carried with him a trunk load of documents which the La Follette people desire the president shall examine and which have of course a friendly bearing on their case.

Left For Fox Lake: Contractor Patrick Ryan and a gang of workmen with two loads of tools left last night for Fox Lake where Mr. Ryan has a large contract for the St. Paul road.

Special sale of white goods tomorrow. It is one of the greatest offerings ever made in the city. Read of the items in large space.

BORT, BAILEY & CO.

BIG CAR CRASHED INTO SHOE STORE

Belvidere Line Coach Left Track on Steep Grade at Rockford This Morning.

One of the big Belvidere line interurban cars left the rails while coming down the steep grade near the State street bridge in Rockford early this morning and crashed into the Harriet shoe store, demolishing the entire front of the establishment. The car itself was badly broken up and it required an hour and a half to clear away the wreckage. No one was injured.

THE WEATHER.

Temperature last 24 hours taken from U. S. registered thermometer at Belmont's drug store: highest 71 above; lowest, 45 above; ther, at 7 a. m., 62; at 3 p. m., 73; cloudy.

LODGE MEETINGS.

CHAIN BROKE AND TWO TONS OF IRON FELL

Men At Work Hoisting Chimney For Rock River Cotton Mills Had Accident Yesterday. While E. T. Fish and his men were hoisting a large section of iron chimney which is to be placed alongside of the brick one to better the draft for the Rock River Cotton Co. boilers, yesterday afternoon, the chain broke and the two ton mass fell some twenty feet or more to the ground. Through some good fortune no one was seriously injured, though Mr. Fish sustained a bad fall.

Attention Woodmen. All Woodmen are requested to meet at West Side Odd Fellows' hall Sunday morning, June 5th at 10 o'clock sharp, to attend services at the Court street M. E. Church. Per order S. M. Fisher.

WAR ON CARP IS A MISTAKE

FINE FISH DESPISED, OWING TO SHEER PREJUDICE.

NOT WHOLESALE DESTROYER

Of Spawn of Other Species—Properly Cooked They Have Few Superiors, Says H. L. Skavlem.

"If the state would take a few thousand dollars and send a few experts through its boundaries, educating them how to cook carp properly, it would be the best paying investment, as far as the people were concerned, that was ever made," said Halvor L. Skavlem yesterday. "The feeling against carp is one of those prejudices which no amount of reasoning will change, I suppose. Fifteen or twenty years ago people felt the same about bullheads. Now the fishermen gladly pay fourteen cents a pound for them and orders are sent out several weeks in advance."

Not a Destroyer.

Mr. Skavlem ridicules the idea that the carp are driving out the game fish by their wholesale destruction of spawn. He admits that they will eat spawn, the same as other members of the sucker family, but maintains that the bullheads are the only fish that suffer. The bass spawn on the gravelly bottoms which the carp do not frequent, while the pickerel, before the lake or river overflows its banks, makes for the grass in the meadows. The pickerel's spawn hatches in two or three weeks—long before the carp, who, with the water at a temperature of 32 degrees, has left the deep holes. The latter, in fact, do not get into the marshes until the first of May. The bullhead spawns in the mud and tails being the natural haunt of the carp, much of spawn is destroyed. The increasing scarcity of bullheads may be partly attributed to this cause.

The Carp in Germany.

In Germany where the carp is regarded as a delicacy, this species of fish is taken out of the feeding pond, placed in a pool of cool spring water, and allowed to remain there two weeks before it is eaten. In this way the strong, oily, milky flavor is gotten rid of and the fish, when served, is sweet and palatable. Where it is not possible to subject the fish to this purifying process, Mr. Skavlem resorts to the expedient of parboiling them with allspice, pepper and cloves. After that they are in the manner of an eel and when the cooking process is finished they are as fine eating as any fish that swims.

JANESVILLE HAD A LOT OF NOTICE

Bower City Woodmen Were Roundly Cheered at the Gathering at Madison.

The Janesville band, the Janesville Woodmen and particularly the Janesville uniformed Royal Neighbors team attracted much attention and won continuous plaudits in the great Modern Woodmen parade at Madison yesterday. The Janesville women were in their natty uniforms of royal purple and white and their precise marching received applause and favorable comment all along the line of march. Streets Filled. The streets of Madison were thronged yesterday with the Woodmen of southern Wisconsin. The Illinois Central, North-Western and Milwaukee roads brought some 15,000 strangers to the city and the residents of Madison and vicinity swelled the crowds to nearly 25,000. From a stand in the capitol park yesterday afternoon speaking exercises were held, ex-Mayor C. E. Welch presiding. Mayor W. D. Curtis welcomed the visitors to Madison on behalf of the city and Governor La Follette spoke briefly for the state of Wisconsin. The speech of the governor was a simple and brief welcome. Strange Accident. Miles Curtis of Richland Center, one of the visitors, met with a peculiar accident yesterday while riding upon one of the street cars of this city. He projected his foot from the car and it came in contact with a trolley pole with such force as to smash it and necessitate immediate amputation. He is now in the general hospital where he was operated upon. Robbed Cash Drawer. During the Woodmen picnic, a bold individual forcibly entered the East Madison depot of the Chicago, Milwaukee & St. Paul railroad and robbed the money drawer of \$203. The agent, Alderman John C. Price, left the office locked for less than three minutes and his baggage man met the robber coming out with a chisel in his hand and passed the man as a supposed company carpenter who said "how d'oe?" in passing. Cause was given but the robber made good his escape in the crowd in the street upon which the police station fronts. No trace of him has been discovered.

ELECTED OFFICERS AT MEETING HELD LAST EVENING

Typographical Union, No. 197, Elect Officers For Ensuing Year. Last evening at a meeting of Typographical Union, No. 197, the following officers were elected for the ensuing year: President—J. Quinn. Vice President—E. H. Spiekerman. Secretary—Treasurer—A. F. Knuth. Sergeant-at-Arms—S. A. Cooper. Delegates to Trades Council—S. A. Cooper, Fred Ehringer and Bert Holman.

Festival of Metals: A lead and zinc carnival now in progress at Galena, Ill., is attracting considerable attention and several Janesville people including Mr. and Mrs. P. J. Monat and George G. Sutherland expect to attend. Mr. and Mrs. M. G. Jeffris left for Galena today. Notice: There will be a regular monthly meeting of the Builders and Contractors' Association at their rooms on Friday evening, June 3rd, at 8 o'clock. GEO. H. ROGERS, Sec'y.

CELEBRATION FOR FOURTH OF JULY

Mass Meeting Tomorrow Night for This Purpose Will Be Held at City Hall.

All persons interested in the holding of a Fourth of July celebration in Janesville this year are requested to meet at the council chambers of the City hall tomorrow, Friday evening, to discuss the same. This is the call issued by a self constituted committee of business men who have been feeling the pulse of the merchants regarding such a jubilation on the nation's birthday. President Carlisle of the Business Men's Association also issues the following call on the same subject:

The Call.

A special meeting of the Business Men's Association is called for Friday evening at seven thirty at the council chambers of the city hall. A full attendance is requested as matters relating to the proposed holding of a Fourth of July celebration will be discussed and decided upon. L. B. CARLE, Pres. A. E. BINGHAM, Sec'y.

Good Opportunity.

The committee who visited the business men this morning found that the general sentiment was in favor of a celebration. They also were promised a considerable sum of money if the project was carried through. Aside from this there is still a small balance left from the last celebration which would be available for such a purpose. Janesville has not had a genuine celebration for many years and if the projected plans can be carried through it will mean much for the city bringing people here who otherwise would go elsewhere and keeping the citizens at home instead of going to some other city for the day.

RECEPTION FOR MR. PYRE TONIGHT

Will Be Held Upon the Stage of the Myers Opera House at End of Performance.

Walton Pyre and his company of players will be tendered a reception upon the stage of the Myers Grand this evening immediately at the close of the production of Prince Karl. Manager Myers has consented to allow the stage to be cleared at the conclusion of the performance and the many friends of Mr. Pyre and his company are invited to step upon the stage and meet them. Mr. Pyre is a Rock county boy and his success in his chosen career delights his many friends in Janesville. It had been hoped to tender Mr. Pyre an afternoon reception, but the fact that the company spends the major part of the day rehearsing made this impossible and Mr. Myers kindly offered the use of the stage for this purpose. Those in charge of the affair desire to invite all friends of Mr. Pyre or his company to remain after the performance and meet him personally. Present indications point to a very large house tonight and tomorrow night.

FUNERAL SERVICES THIS AFTERNOON

Mrs. Hammond Ames Tenderly Laid to Rest in Oak Hill Cemetery.

Funeral services over the remains of the late Mrs. Hammond Ames were held this afternoon at 2:30 o'clock from the family residence, 21 South Bluff street. There was a large attendance of sympathizing friends and relatives of the deceased present at the last and rites. The interment was at Oak Hill cemetery.

Belle Augusta Robinson

Mrs. Belle Augusta Robinson died shortly before four o'clock yesterday afternoon. The deceased, whose maiden name was Miss McWethy, was born December 5, 1818, at Warsaw, Wyoming county, New York. She was married to Cornelius W. Robinson, at Madison, N. Y., on March 25, 1863, and has been a resident of the town of Janesville since that time. Of the six children born to this couple, four survive. They are: Clarence M. Robinson of Oskosh, Forest L. Robinson, Mabel L. Look, and Frank H. Robinson, all of the town of Janesville. The funeral will be held from the house at 2:00 p. m. Friday, Rev. Vaughan officiating. The interment will be at Oak Hill.

NEWS OF A PERSONAL NATURE

Mr. and Mrs. A. S. Peters who were married Decoration day, returned this morning from Madison, where they spent their honeymoon. The young couple will make their home in this city. J. A. Craig was a Chicago visitor to-day. Capt. Piny Norcross and wife spent the day at Indian Ford. Mr. Kenneth and a party of lady friends of Kenosha visited the city in a touring car to-day.

Oatmeal Coffee.

Oatmeal coffee is a very wholesome drink for any invalid, and one which is little known. Prepare some nice fresh oatmeal of a coarse kind, moisten it with just enough cold water to allow of its being made into cakes. Roll out thinly, and brown in a slow oven until the color of a coffee bean without being burnt. Place two or three of these cakes in a pint jug, fill with cold water and stand for two hours. Strain, and it is ready for use.

Improvement in Cables.

A striking fact about copper is that a cable of today for submarine telegraphy will transmit twice as many messages as one made in 1858, due to the greater purity of the copper now employed. Many metals are most susceptible to minute additions of various alloying elements—being with them, and crumbling easily when a slight trace is incorporated.

BIG CROWD AT BASEBALL GAME

Chicago Union Giants Looked Formidable When the Play Started—Good Game Sunday.

A large crowd assembled at Athletic park this afternoon to witness the baseball game between the aggregation of colored men known as the Chicago Giants and Herman Kat's Clinton Maroons. The odds seemed to favor the visitors up to the time the game was called at 3 o'clock. The battery for the Maroons consisted of Howley, pitcher, and Pye, catcher. Miller and Johnson officiated in a similar capacity for the visitors. At Yost's Park on Sunday next the Maroons and the Janesville team will cross bats. Palmer and Wendt will be the battery for Janesville and Hill and Pye for the Maroons.

LASTERS WALK OUT AT MARZLUFF & CO'S

Eleven Employees Walked Out Yesterday—New Price List Schedule Cause.

Eleven men employed at the F. M. Marzluff & Co. factory walked out yesterday afternoon, after giving Mr. Marzluff notice that they would remain out until their trouble was settled in a satisfactory way. The men were employed in the lasting department and the trouble is said to be over a new schedule of prices that has recently gone into effect at the factory. The matter was soon settled to entire satisfaction of all by the management.

WILL OBSERVE CHILDREN'S DAY

Sunday, June 5th, Will Be Observed as Children's Day by Sunday School of Congregational Church.

Next Sunday will be Children's day at the Congregational church. The Sunday school will attend the morning service and the pastor will preach a sermon especially for the young people. Children will be baptized and Bibles and certificates of graduation from the Primary Department given. All the children of the Sunday school are asked to come to the morning church service. In the evening a prize service will be given. Prof. Tyler, the music professor of Beloit college, will give a number of selections on the organ and Miss Peaks will sing.

Marriage Licenses.

Since yesterday marriage licenses have been issued to Wallace E. Watts and Nellie E. Donahue of Janesville, Brayton E. Smith of St. Paul and Mary K. Hancock of Clinton, Albert H. Taylor of Elgin and Adeline E. Roches of Clinton, Fred L. Bush and Myrtle A. Madden of Beloit.

NEW DECREE FOR STYLISH CANINE

Must Submit to Being Clipped in the Latest Eastern Fashion—Does Not Like the Fad.

Dogs owned by fanciers in Janesville will be shaved in a different style than last year, as Dame Fashion has decreed in the east that the style must change. None of the Janesville breed canines thus far have been compelled to undergo the operation, but as soon as the weather becomes warmer dog men say that many of the high bred dogs will be shaved in style. Most of the dogs which have been shaved in accordance with the eastern decree have slunk away into alleys and corners immediately after the work of removing a portion of their hair had been completed, and it appears that they are not taking kindly to the innovation. The change is not great, but it is striking, and because of this fact it is believed that most owners will take their pets to dog doctors in the near future for the operation. Last year Dame Fashion demanded that canines have the entire rear half of their bodies in addition to the legs shaved, and that only a small bunch of hair be left at the end of the tails, giving dogs the appearance of lions. This year, however, poor "doggy" must agree to carry a bunch of hair on his rear legs during the hot summer months if his owner wants to be in style. Instead of having the entire legs clipped, stylish dogs will walk about hereafter with only that part above the knees shaved. "In most of the large cities of the east this fashion has been in vogue for a long time," said one of Janesville's dog owners, in speaking of the innovation yesterday. "Of course, it will take time for the people of Janesville to become accustomed to the change, but I believe that they will take kindly to it. There is no particular reason for the change, except that some new style must be created occasionally."

FRED HEBNER PURCHASED A FINE DRIVING TEAM

Mr. Hebner Was in the City With the Team Yesterday on His Way to Johnson Creek.

Fred Hebner arrived in the city yesterday morning from Burlington with a fine team of drivers purchased of Nicholas Raynor of Burlington. The team are bays, one four and the other five years old. They were inspected by a number of good judges of horse flesh, while in the city and are pronounced to be the finest team that has been seen on the lower city streets in many a day. The price for them was \$100. Mr. Hebner drove the team overland to Johnson Creek yesterday afternoon.

LIVE WELL AND WISELY.

Chief Secret of the Success of the Japanese.

In 1899 a commission was appointed by the Japanese government "to consider whether by a meat diet or by other means" the race could be made taller, but it came to the conclusion that as the Japanese exceeded taller races in strength and endurance the wise plan was to disregard stature. The Japanese are fond of bathing and use baths heated to a degree that would be intolerable to the average American, but they also use cold bathing. Water, indeed, is freely used, both internally and externally. Rheumatism is almost unknown and the British Medical Journal considers it probable that the absence of meat from the diet, combined with the use of plenty of water, accounts for this immunity. The diet of the Japanese is frugal and some of the record marches of their soldiers have been made on a little rice. The value of fruit and vegetables is more fully recognized than with western nations. Milk is scarce and tea, beer, spirits and tobacco are very sparingly employed. Windows are kept open day and night and the value of fresh air and physical exercise is fully realized. "Nothing," says a medical authority, "short of this perfection and strength, with its accompaniment of good mental balance and happiness, could have caused the Japanese to accomplish in thirty years what it has taken other nations centuries to achieve."

They Grudge Good Health.

Theoretically, every adult person of any intelligence wishes to be strong and healthy. Practically, a majority of them wish nothing of the sort. They would like to be well enough, but are not willing to pay the price, though it really costs nothing. When a man falls ill he usually wants to get something to "patch him up," so that he can continue the foolish things which have caused his bad condition; hence the almost universal resort to drug treatment instead of the natural means of restoring and maintaining health and strength.

If a man is really desirous of being naturally sound and healthy, he will try to think out the means of becoming so. These means are all included in the seven fundamental principles of practical hygiene—namely, exercise, rest, air, light, food, drink, and bathing.—London Answers.

American Nuisance.

The nuisance of whistling by switch engines which work all night in the railway yards in and near cities is permitted in no other country than America. It is a serious detriment to public comfort and health.

Soldiers in Silk and Satin.

Ethiopian troops on ceremonial occasions are arrayed in silks and satins, with lion and leopard skin mantles, and gold and silver-plated buckles.
